Backhaul Transmission synchronization and Planning

Duration

3.0 Days

Course Content

Backhaul Technologies

- Point-to-point microwave radio relay transmission
- Point-to-multipoint microwave-access technologies
- DSL variants, such as ADSL and SHDSL
- PDH and SDH/SONET interfaces
- Ethernet

Synchronization technologies

- GPS
- PDH (E1)
- Timing over Packet
- Synchronous Ethernet

Mobile Backhaul Transmission Planning
