TK920: AAA Basics

Duration

2.0 Days

Course Content

1. Introduction to AAA

1.1. Describe Authentication, Authorization and Accounting

1.2. Describe AAA server interfaces in 3GPP network and non-GPP network

2. AAA general functions in 3GPP network

2.1. Describe main Authentication mechanisms

2.2. recognize key AAA scenarios in 3GPP network

2.3. Define Network access security in trusted and untrusted non-3GPP access

2.4. Explain interworking of 3GPP network and non-3GPP network

3. AAA main protocols

3.1. explain EAP protocol

3.2. explain Radius protocol

3.3. explain Diameter protocol
